EXPERIENCE

Built and Manage Websutra — Full Stack / Automation Developer

2026 — Present | [websutraa.com](#)

- Built and run a web development agency delivering professional websites across healthcare, education, restaurants, and other businesses — 5+ projects delivered.
- Designed and built websites for [Ayushman Heart Center](#), [Sri Krishna Orthopaedic Hospital](#), Pavan Sai Hospital, and Rama Eye Clinic.
- Delivered 5+ projects from design to deployment, improving the online presence of healthcare organizations.
- Developing two software solutions for GVPCE: an Academic PDF Resource Sharing System and a College Club Management System.

PROJECTS

Voice Agent Dashboard

- Built a dashboard that lets businesses manage AI-powered voice calling for their customers — tracking leads, call outcomes, and campaign performance in real time, so teams can follow up faster and convert more leads without manual dialing.

AI Code Plagiarism Detector

- Built a tool that automatically detects copied code submissions on coding platforms, even when small changes are made to disguise them — helping maintain fairness and academic integrity.

PDF Upload Portal

- MERN platform for students to upload and access academic PDFs organized by year, with secure backend handling.

Thread App & Real-Time Chat App

- Social discussion app (Clerk auth + MongoDB) and a Socket.IO-based live room chat application.
